Do you all have any comments on this? I read the portions I presented and thought it was a pretty accurate rendition.

Dan and Larry – I always send ARSG meeting notes to Bill and Steve for comments. Because both of you made significant presentations, I thought I would send them to you as well for comments before finalizing them.

I have Larry's presentations to work off of, but not Dan's. So Dan, there might be a couple of significant points that I missed. Let me know.
